³The School is reminded of the Part 8, para 34 obligation on proprietors to ensure that persons with leadership and management responsibilities at the School actively promote the wellbeing of students. The ISI Commentary reminds proprietors that the ethos of any school should be to develop and nurture the wellbeing of students

7 Student welfare

7.1 The School recognises its responsibility to safeguard and promote the welfare of students in its care. This responsibility encompasses the following principles:

- 7.1.1 to promote a child centred and co-ordinated approach to safeguard students' welfare;
- 7.1.2 to support students' physical and mental health and emotional wellbeing (as well as their social and economic wellbeing);
- 7.1.3 to identify children who may benefit from early help, those who may be in need and / or those suffering, or likely to suffer, harm;
- 7.1.4 to protect students from all types of abuse, violence, harassment, and exploitation and neglect;
- 7.1.5 to recognise that corporal punishment can never be justified;
- 7.1.6 to provide students with appropriate education, training and recreation to keep themselves safe and well, including PSHE Education and Relationships and Sex Education;
- 7.1.7 to encourage students to report concerns and to contribute to society;
- 7.1.8 to highlight that the law on child-on-child abuse is there to protect them rather than criminalise them;
- 7.1.9 to protect students from the risk of honour based violence, FGM, radicalisation, extremism and being drawn into terrorism, modern slavery and human trafficking, by actively promoting fundamental British values and providing appropriate support to those assessed as being vulnerable;
- 7.1.10 to ensure that students are provided with a safe and healthy environment so far as reasonably practicable;
- 7.1.11 to promote a whole school approach to online safety and to protect students from the risks arising from the use of technology;
- 7.1.12 to listen to and respect students and in particular to listen to students' complaints and concerns, to complaints and concerns raised by others about student wellbeing / welfare and to investigate and manage such concerns effectively, and
- 7.1.13 consult with stakeholders about issues of student welfare and ensures that appropriate training and support is provided to students.

7.2 The School recognises that individual students may have needs which arise from physical, medical, sensory, learning, emotional or behavioural difficulties which require provision additional to or different from that generally required by children of the same age in mainstream schools. The School is committed to promoting and safeguarding the welfare of

all of its students having regard to the special requirements of individual students but, where appropriate or necessary, balancing the special requirements of individual students against the School's responsibilities to promote and safeguard the welfare of all its students.

- 7.3 In addition, when carrying out its assessments, the School will endeavour to take into account all relevant factors⁴ including, where appropriate:
- 7.3.1 a student's wishes and feelings, wherever possible;
 - 7.3.2 a student's developmental needs;
 - 7.3.3 their family circumstances;
 - 7.3.4 the wider community context in which they are living;
 - 7.3.5 wider contextual issues such as environmental and / or other extra-familial threats and / or new and emerging threats e.g. online threats.
- 7.4 The School addresses its commitment to these principles through prevention and protection measures.
- 7.5 **Prevention:** ensuring that all reasonable measures are taken to minimise the risk of harm⁵ to students and their welfare by:
- 7.5.1 ensuring through training that all staff are aware of and committed to this policy and the values set out;
 - 7.5.2 establishing a positive, supportive and secure environment in which students can learn and develop;
 - 7.5.3 creating a culture and environment that promotes student welfare, deters abuse and challenges inappropriate behaviour;
 - 7.5.4 providing students with the confidence and a mechanism, to raise any problems, concerns or complaints they may have;
 - 7.5.5 providing support as soon as a problem emerges at any point in a child's life and taking appropriate action in accordance with the Kingston and Richmond Safeguarding Children Partnership (KRSCP) referral threshold document. The School will, in particular, be alert to signs of abuse and neglect, signs of serious violence and to the potential need for early help;
 - 7.5.6 providing medical and pastoral support that is accessible and available to all students;
 - 7.5.7 including in the curriculum, sport and recreation arrangements, activities and opportunities for personal, social, health and economic education (**PSHE**) and

Relationships and Sex Education which equip students with skills to enable them to protect their own welfare and that of others.

- 7.6 **Protection:** ensuring all appropriate actions are taken to address concerns about the welfare of a student, whether of a safeguarding nature or otherwise. This includes:
- 7.6.1 having a zero-tolerance attitude to abuse, maintaining an attitude of: "it could happen here";
 - 7.6.2 ensuring that students, staff and others, where necessary, are aware of the School's relevant processes and procedures and what is expected of them;
 - 7.6.3 taking immediate and appropriate action in response to concerns about a child's welfare (even if they are considered to be low level and / or they do not presently meet the harm thresholds⁶) and by keeping appropriate records;
 - 7.6.4 managing the issue or concern in line with the appropriate policy, procedure or guidance and pastoral support processes;
 - 7.6.5 proactively sharing information to help identify, assess and respond to risks or concerns about the safety and welfare of children with appropriate colleagues, agencies and involving students and their parents/carers appropriately;
 - 7.6.6 being aware of changing or emerging threats to student welfare such as significant public health and security related incidents, increased reports of child-on-child abuse or emerging online or technological issues.
- 7.7 The School recognises that student welfare and wellbeing can be adversely affected by many matters whether in or away from school, online or offline, including abuse, bullying, violence and harassment, radicalisation, behavioural and health issues, including mental health issues.
- 7.8 Students may not feel ready or know how to tell someone that they are being abused, exploited, neglected and / or may not recognise their experiences as harmful. In accordance with the School's Safeguarding & Child Protection Policy and Procedures, staff should seek to build trusted relationships with students to facilitate communication. Barriers to communication should not prevent staff exercising professional curiosity and speaking to the designated safeguarding lead (DSL) if they have concerns about a student.

9 Risk assessment

- 9.1 Where a concern about a student's welfare is identified, the risks to that student's welfare will be assessed and appropriate action will be taken to reduce the risks identified in accordance with the School's relevant policies or procedures as detailed above. The assessment and actions identified will usually be recorded in writing and regularly monitored and reviewed.
- 9.2 The format of risk assessment may vary and may be included as part of the School's overall pastoral support system in response to a welfare issue, including the use of individual student welfare plans (such as behaviour, healthcare and education plans, as appropriate) or by using the attached risk assessment form at Appendix 2. Regardless of the approach taken or form used, the School's approach to promoting student welfare will be systematic and student-focused.
- 9.3 A student welfare risk assessment is a careful examination of what could cause harm to student welfare and a consideration of appropriate control measures, to weigh up whether the School has taken adequate precautions or should take additional steps to prevent the risk of harm.
- 9.4 The risk assessment process is not intended to create huge amounts of paperwork and neither should it be viewed as purely a tick box or paper exercise. Its purpose is to identify sensible measures to control real risks - those that are most likely to occur and / or will cause the most harm if they do.
- 9.5 Risk assessments will be concise and focused on determining appropriate ways to eliminate a hazard or control the risk when a hazard cannot be eliminated.
- 9.6 Further guidance for staff when carrying out risk assessments is set out in Appendix 1.

10 Reporting and information-sharing

- 10.1 When assessing risks to student welfare and wellbeing at the School, all staff should also consider whether the matter should be reported internally and / or to external agencies and / or regulatory bodies, including but not restricted to, children's social care, the police, the Channel Police Practitioner, to the Modern Slavery Trafficking Unit of the National Crime Agency, Ofsted, Child and adolescent mental health services (**CAMHS**) and / or the Charity Commission
- 10.2 The procedures for reporting safeguarding concerns are set out in the School's Safeguarding & Child Protection Policy and Procedures.
- 10.3 The School understands that information sharing is essential for effective safeguarding and promoting the welfare of children and young people. Fears about sharing information will not stand in the way of the need to promote the welfare, and protect the safety, of students, which is always the School's paramount concern.
- 10.4 In particular, the School will co-operate and adopt an active approach with children's social care, and where appropriate the police, to ensure that all relevant information is shared for

the purposes of early help assessments, and assessments and child protection investigations under the Children Act 1989.

- 10.5 The DSL will take a lead role in all cases where a student is detained and questioned by the Police, or where a strip search is carried out by Police on school premises, to ensure that the student is supported by an appropriate adult in line with PACE Code C (Code of Practice for the detention, treatment and questioning of persons by Police Officers). The role of the appropriate adult is to:
- 10.5.1 Advocate for the student's safety and wellbeing at all times;
 - 10.5.2 support, advise and assist the student when they are given or asked to provide information or participate in any procedure;
 - 10.5.3 observe whether the police are acting properly and fairly to respect their rights and entitlements, and inform an officer of the rank of inspector or above if they consider that they are not;
 - 10.5.4 assist the student to communicate with the police whilst respecting their right to say nothing unless they want to; and
 - 10.5.5 help them to understand their rights and ensure that those rights are protected and respected.
- 10.6 The School monitors student attendance and shall inform the applicable local authority in the appropriate circumstances of any student who is going to be added to or deleted from the School's admission register. The School will consider whether it is necessary to liaise with the local authority in circumstances where a parent has expressed an intention to home educate a student.

11 Training

- 11.1 The School ensures that regular guidance and training is arranged on induction and at regular intervals thereafter so that staff and volunteers understand what is expected of them by this policy and have the necessary knowledge and skills to carry out their roles.
- 11.2 The level and frequency of training depends on role of the individual member of staff and the need for them to complete risk assessments as part of their role.
- 11.3 The School maintains written records of all staff training.

12 Record keeping

- 12.1 The School will retain records of all welfare concerns, discussions and decisions made and the reasons for those decisions. This is likely to include the significant findings of relevant risk assessments.
- 12.2 All records created in accordance with this policy are managed in accordance with the School's policies that apply to the retention and destruction of records.

12.3 The information created in connection with this policy may contain personal data. The School's use of this personal data will be in accordance with data protection law. The School has published on its website privacy notices which explain how the School will use personal data.

13 **Monitoring and review**

13.1 Relevant risk assessments and any action taken in response to risk assessments will be monitored regularly in order to ensure that student welfare issues are being appropriately managed, and to ensure that any potential patterns are identified, including patterns of low-level concerning, problematic or inappropriate behaviour.

Appendix 1 Guidance for staff in carrying out risk assessment of student welfare, including non-exhaustive checklist of factors to consider

1. A student welfare risk assessment is a careful examination of what could cause harm to student welfare and a consideration of appropriate control measures, so that you can weigh up whether the School has taken adequate precautions or should take additional steps to prevent the risk of harm.
2. The risk assessment process is not intended to create huge amounts of paperwork and neither should it be viewed as purely a tick box or paper exercise. Its purpose is to identify sensible measures to control real risks - those that are most likely to occur and / or will cause the most harm if they do.
3. Risk assessments will be concise and focused on determining appropriate ways to eliminate a hazard, or control the risk when a hazard cannot be eliminated. When thinking about your risk assessment in this context, remember:
 - i. a welfare issue is anything that may harm a student; to include cyber-bullying, sexual violence or harassment, abuse and the risk of radicalisation and extremism;
 - ii. the risk is the chance that a student could be harmed, together with an indication of how serious the harm could be if it occurs.

4. The steps to risk assessment

Step 1: Identify the issue

- First you need to work out how students could be harmed. This will generally be set out in the concern raised about a student's welfare or as a result of monitoring patterns or issues affecting students' welfare generally at school.

Step 2: Decide who might be harmed and how

- Identify individual students or groups of students who might be harmed and how they might be harmed. Complete a separate student welfare risk assessment for each student and use the Checklist below to help identify risks and protective factors. This may include an assessment of the needs of any potential victim(s) and/or alleged perpetrators and other children who may be at risk.

Step 3: Evaluate the risks and decide on precautions

- Decide what to do about the risks, how information should be shared and follow any procedures regarding the internal authorisation of suggested precautions.

- Compare what you currently do with what is required by law, guidance or is accepted good practice. If there is a difference, list what needs to be done to protect the student's welfare. Where appropriate take into account any special requirements or protected characteristics.

Step 4: Relevant consultation (where required, permitted or appropriate⁷)

- Meet with the student, student's parent(s) or carer(s) or third party e.g. professional involved with the student to discuss the risks and wishes and feelings of the student if appropriate.

Step 5: Record your findings and implement them

- Make a written record of your significant findings - the concern, the issues, how student(s) might be harmed and what arrangements the School has in place to control those risks.
- There is no prescribed format for this record but any record produced should be simple and focussed on control measures and the steps the School proposes to take to manage the risk. The School will record the risk assessment in the form set out in Appendix 2.
- If the assessment is that the behaviour is of such high risk even with control measures in place that it could not be adequately managed in the school setting, consideration will need to be given to alternative plans for managing the student(s) presenting the alleged behaviour.

Step 6: Review your risk assessment and reassess / update, if necessary

- Assessment should be a dynamic process which analyses and responds to the changing nature and level of need and / or risk. You should review what you are doing for the students identified and across the School generally and monitor and review the efficacy and / or the outcome of the measures you have put in place on a regular basis, or as required. This is particularly important when you are managing complex welfare issues, such as child-on-child abuse, where both students remain in school.
- The information obtained through this process and the actions agreed will be shared, as appropriate, with other staff, students and third parties in order to safeguard and promote the welfare of a particular student or of students generally.

⁷ It may not always be possible to discuss issues with students or parents at this stage, particularly where other stakeholders such as the Children Services and/or the Police are involved. Advice should be sought from them in those circumstances.⁸Drafting note - staff at risk will not be assessed under this policy.

Checklist of factors to consider

In assessing the risks, the assessor should consider the factors listed below as well as using the factors to consider any involvement from outside agencies, for example requests for Early Help. The factors should be used to assess the nature and level of risk posed and / or faced by the student(s) in school including in relation to location, activities, contact with specific students, transport to and from school and contexts outside school.

Students may not feel ready or know how to tell someone that they are being abused, exploited or neglected, and / or they may not recognise their experiences as harmful for a number of reasons: they may feel embarrassed, humiliated, or being threatened due to their vulnerability, disability and / or sexual orientation or language barrier. Exercising professional curiosity and knowing what to look for is vital for the early identification of abuse and neglect so that staff are able to identify cases of children who may be in need of help or protection.

Self-care Skills: e.g. lack of care of appearance, lack of personal hygiene, unsuitable clothing.

Child's wishes and views: e.g. reporting to police, choice.

Family and environmental factors

Family History and Functioning: e.g. boarder, divorce, parental relationship tensions e.g. potential breakup / difficulties with step parent, domestic violence, single parent, absent parents, challenging sibling, Looked After Child, previous involvement with CSC, adopted child, privately fostered child, loss of significant adult, caring responsibilities, mental health issues.

Anti-social or criminal behaviour: eg: showing signs of being drawn into anti-social or criminal behaviour, including gang involvement and association with organised crime groups or county lines.

Housing, Employment and Finance: e.g. loss of parental income / job, inappropriate housing, asylum seeker.

Community Resources: e.g. negativity towards family, non-engagement with services.

Parents and Carers

Basic Care, Safety and Protection: e.g. suspected / actual physical / emotional / or sexual abuse or neglect, appropriate supervision e.g. nannies / drivers / home alone arrangements.
